Dedication

Martha Cogburn was considered a close friend of many of the students at our school.

She added much to our school's spirit through her cheerfulness and good humor.

Due to these and many other characteristics of her outgoing personality, we, the Annual Staff of 1963-64, dedicate this annual to the memory of MARTHA COGBURN.

This book represents the paramount importance and accomplishments of educational pursuits for all those whose names and pictures appear herein.

Time was when a person with only a sixth or seventh grade education could "go to the top" in almost any endeavor he chose, but such opportunity in this technological age no longer exists. Many doors to advancement will be forever closed to those who do not complete their high school education. Congratulations are hereby extended to each and every one of you who are well on the way toward the goal of a high school education.

Library Serves The School

Our library serves as a source of information for our students. We have a large variety of reading material for educational purposes as well as entertainment purposes.

Mrs. Glidewell has done a good job as librarian both this year and last.

This must be a pose.

Our students studying?

Language Arts Influence Communication

The English department of our school is very important because of its influence on the students and the influence on the other subjects the students are taking. English courses widen our vocabulary, teach the art of writing, talking, and thinking.

The Journalism department is another phase of Language Arts which is very important to the school because it is responsible for the annual. This department also aids students planning to work in that field.

MRS. MARTHA SPICER

Looks like a hard exam.

Tell us, so we can laugh.

What a cozy little group.

Student Outlook

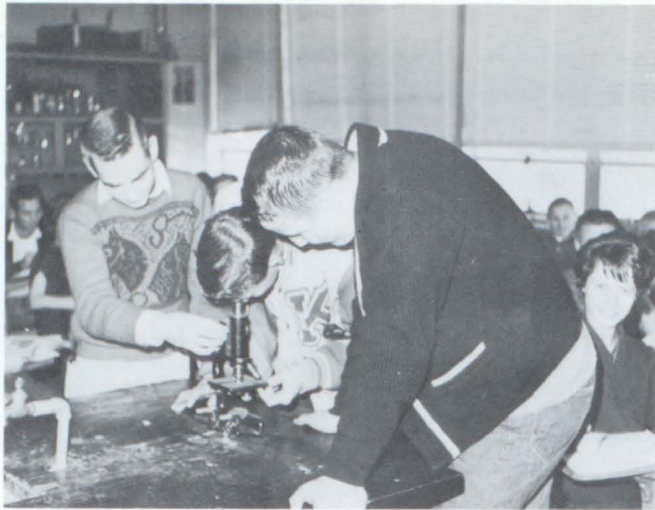

The Social Studies courses taught in Kennedale High School are World History, United States History, Civics, and Texas History.

The purpose of the Social Studies courses in our high school is to give the students a knowledge of the foundations upon which our society is built. To understand the structure and basis of our society, one must study the historical development of an ever-changing world. By having a knowledge of the historical background of an ever-changing world, he can better fill his place in the complex society that now exists.

What did you say -
antidisestablishmentarianism?

This must be Ned's
day to loaf.

Dr. Livingstones, I presume.

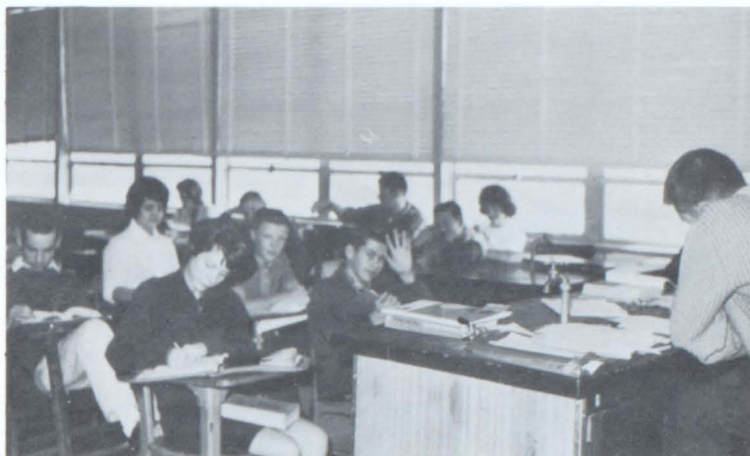

Is Biology class really this interesting?

Miss Jeanette Sandy

*Students Gain Understanding
Of Environment In Science*

Yes, Donnie, you're excused.

MR. JACK RHODES

Science quite possibly covers more areas of human life and environment than any other subject. At Kennedale, the emphasis is placed upon sciences which involve several fields of study.

Mr. Rhodes and Miss Sandy teach the general science and biology classes. Mr. Farris instructs the chemistry and physics classes, which are alternated each year.

In general science, one learns some of the basic facts of all sciences. Biology concentrates the study to those sciences which concern the classification, anatomy, and chemistry of all living things. These courses give the student a good background in scientific principles and thinking which will help him to cope with the problems of everyday life.

Physics and chemistry are more advanced courses. Physics includes a study of inanimate matter, its movements, natural phenomena, and the application of mathematics to physical changes. Students learn of the composition of substances, their characteristics, and the properties of their components in chemistry. They also become acquainted with chemical changes, reactions, and what causes them.

Thus, science courses at Kennedale are geared to help both those who plan to continue scientific studies and those who have decided to enter other fields.

Mathematics Advances

General Math, Algebra 1, Algebra 11, Plane Geometry, and Trigonometry are the math courses taught at Kennedale.

Without skill in numbers, one would find surviving in the modern world quite difficult. In his math classes, Mr. Farris strives to teach his students fundamental arithmetic and algebraic operations. This knowledge prepares them for their future careers and helps them to solve the economic problems which are encountered every day.

The fact that one must have two credits in math to be graduated illustrates its importance in American Society. Correct use of mathematic principles is becoming more and more necessary each year, and the Kennedale High School math department is doing its best to produce students who can meet this need.

MR. RAY FARRIS

Business Subjects Aid Career

Typing is a very important subject because it can be used in practically any vocation or work. Typing I acquaints you with the fundamentals of typing and Typing II is the more advanced course. Bookkeeping is important in every vocation available. There will be a need for bookkeeping in every student's life.

MR. BOB LEACH

It must be here somewhere.

Band Practices Daily

The Kennedale Band, under the direction of Mr. Lancaster, is progressing rapidly. Their participation in the half-time activities and parades provided good experience as well as enjoyment for everyone.

Homemaking Develops Skills

In homemaking girls study not only cooking and sewing, but also child care, family relationships, grooming, nutrition, housing, management, budgeting, flower arranging, and laundering. This training is intended to help each girl become a better member in the home, school, community, and world. Each girl is encouraged to improve her homemaking abilities not only for her future life, but also in her daily life as a teenager.

Special Education

Our Special Education Class is a happy group that works together as a family. We realize that every individual born into this world has certain potentialities and certain limitations. It is our purpose to help the individual to realize his full potentiality that he may function completely as a member of society. We do this by developing self-realization, human relationships, economic efficiency, and civic responsibility.

Mrs. Tampke makes an assignment for the daily work of her pupils.

Her class is extremely attentive.

JAMES REDMOND is barely "making it" for one of our touch-downs during the Boyd game. We went on to beat them by a score of 34-0.

COACH LEACH demonstrates some of the finer techniques of running the ball.

One of our outstanding backs is MIKE COOPER. He lettered four years, made all-district four years, and headed the team as Captain for four years.

Other four year lettermen are: RONNIE RANKEY and RAY KELLEY. Both made all-district their Senior year.

Football games are won and lost on the practice field.

Homecoming Highlights Football Season

The climax of a football season is, of course Homecoming. This year, the Pep Squad and Cheerleaders built a lovely float on which to display the anxious girls awaiting the announcement of the name of the 1963 Homecoming Queen.

This year was one of our best seasons and the boys presented some marvelous scores.

Below are the Homecoming Queen and her court, left to right:

JUNIOR HIGH ACTIVITIES

CHEERLEADERS

Left to Right: Alicia Cornelius, Judy Selman, Diane Schaefer, Judy Whalin, Wanda White, Myra Winters, and Mascot, Missy Chambers.

The Junior High has been very busy this year with sports, organizations, and school work. There are football, in which all the boys take part, and basketball, of course the girls, as well as the boys, take part in this sport. The Junior High Y-Teens is a new club affiliated with the YWCA and sponsored by Miss Sandy. To say the least, these young people have done their share in maintaining the school spirit at Kennedale Junior High.

Girls discuss plays for the basketball team.

The Kennedale Band was started in 1960. Its first director was Barry White, then Carl Chapman. The present director, Carlton Lancaster came in 1961. Under his leadership, the band has improved and made much progress.

The band began public performances in 1961 at school basketball games. In 1962 it began marching at football games and six majorettes were added to the regular band. Six herald trumpeters were added in 1963. In May, 1963, it presented its first concert.

Several trophies have been awarded to the band: A first place trophy for marching plus eighteen awards to individuals in the Castleberry Band Festival and second place trophies for sightreading and concert playing.

It has also participated in the Hurst-Bell and University Interscholastic League marching contests, the Frontiers' Day Parade, and the Stock Show Parade.

The Kennedale school and community have gained much pleasure from the band and are quite proud of it.

Student Council Sponsors Activities

The Student Council at Kennedale High School has been very busy this year sponsoring activities centering around our school and its pupils. Not only is it a great privilege and immense responsibility to serve as a member of this organization, but also, it gives one great insight into the workings of our school and even the city government.

FHA Creed

We are the Future Homemakers of America. We face the future with warm courage and high hopes. For we have the clear consciousness of seeking old and precious values. For we are the builders of homes, homes for America's future. Homes where living will be the expression of everything that is good and fair. Homes where truth and love and security and faith will be realities, not dreams. For we are the Future Homemakers of America. We face the future with warm courage and high hopes.

WHAT IS A CUSTOMER?

A Customer is the most important person ever in this office
...in person or by mail.

A Customer is not dependent on us...we are dependent on him.

A Customer is not an interruption of our work...he is the
purpose of it. We are not doing him a favor by
serving him...he is doing us a favor by giving
us the opportunity to do so.

A Customer is not an outsider to our business...he is a
part of it.

A Customer is not a cold statistic...he is a flesh and blood
human being with feelings and emotions like your
own, and with biases and prejudices.

A Customer is not someone to argue or match wits with. No-
body ever won an argument with a customer.

A Customer is a person who brings us his wants. It is our
job to handle them profitably to him and to our-
selves.
